Introduction to the CiP Framework

Continuous Learning Pathway

Qualification Pathway

Our social care workforce vision: A thriving, resilient values-based social care workforce continuously evolving to provide the best care and support to service users now and in the future.

The **CiP Framework** is for everyone who is a **registered social care practitioner**. Social care practitioners provide high quality, safe and effective social care practice, supporting people of all ages with a range of diverse and complex needs. This is however dependent upon a valued and supported workforce, who are appropriately trained, skilled and rewarded for their work and the vital impact that has on people's lives.

See the [About page](#) and [FAQs](#) for more information.

To get started select your level

Entrance Level Social Care Practitioner ➔	Social Care Practitioner ➔
Enhanced Social Care Practitioner ➔	Social Care Manager/Leader ➔

Feedback

Very well laid out. Like the way its colour coded.
Like the way its broken down and in order.

Yes very user friendly, accessible, easy
to navigate and found the links very
useful.

Clear call to actions around the
various qualifications pathways.
Interactive and case studies
bring to life and make it
relatable.

Very easy to use and navigate - great links and well
backed up by RQIA expectations. Aligns the quals to
the job role very clearly. Good to use, easy to follow.
Helps user to see what levels they could do and it's a
good stepping stone.

Over to You – What do you need to do now?

- **Ensure to embed the CiP Framework:**
 - **Every day practice**
 - **Supervision, Appraisals, Learning and Development Plans**
 - **Team Meetings**
 - **Identify and record learning opportunities**
 - **Chart your own and others learning journey through achievement of SMART outcomes**

Accessing the CiP Framework Interactive Web Resource

Using the QR code on the screen, open the resource from your mobile device, and start to explore.

Then let us know your thoughts on the following questions:

- What was your overall impression of the resource?
- What did you find most useful?
- How easy was it to navigate and use the resource?

Use the sheet provided on your table to provide feedback to the above questions before you leave
